

QUALITY, ENVIRONMENTAL AND OCCUPATIONAL RISK PREVENTION POLICY

Constructora d'Aro and Compact Habit's Quality, Environmental and Occupational Risk Prevention Policy is based on the management of the company's commitment to give our customers full satisfaction regarding the expectations set out in our company.

To make this possible, both Constructora d'Aro and Compact Habit have had their own method since its origins, which has been improving and systematizing over time on the basis of the family of ISO standards 9000, 14000 and 45001, applying the following principles and commitments:

- Our method based on the three objectives-specific goals required by customers: **Term, Quality, Cost.**
- Bet on safe, healthy working conditions, accident prevention, deterioration of health related to work, compliance with legislation, elimination of dangers and reduction of risks, continuous improvement, consultation and participation of workers as well as prevention of pollution and protection of the environment during the planning and execution of work.
- The most important capital of the company is its personnel, so their safety and satisfaction is the main objective. We bet on safe, healthy working conditions, prevention of accidents and deterioration of health.
- We promote the sense of responsibility of staff in relation to Safety and the Environment, creating an experience that motivates workers, suppliers and customers.

Constructora d'Aro and Compact Habit need specialized industrialists, suppliers and subcontractors, those integrated and committed in its Management System.

This Policy is public for all integrants of the company, is available for interested parties and its implementation is a fundamental objective for Management and responsibility of all.

Approved 7 / 01 / 19	C.E.O. CONSTRUCTORA D'ARO, S.A.  CONSELLER DELEGAT
